

What are Per-Minute Countries?

QCONF offers 48 countries at no additional cost. Europe and North America are covered. Some more "Challenging" Countries like **China, India, Indonesia, Iran, Pakistan and more** have a **low per-minute charge on your side**. This is because it costs us extra as well. Most conferencing services do not include all of these exotic countries but we @ QCONF never stop thinking about how to improve our service and give you a comprehensive international solution.

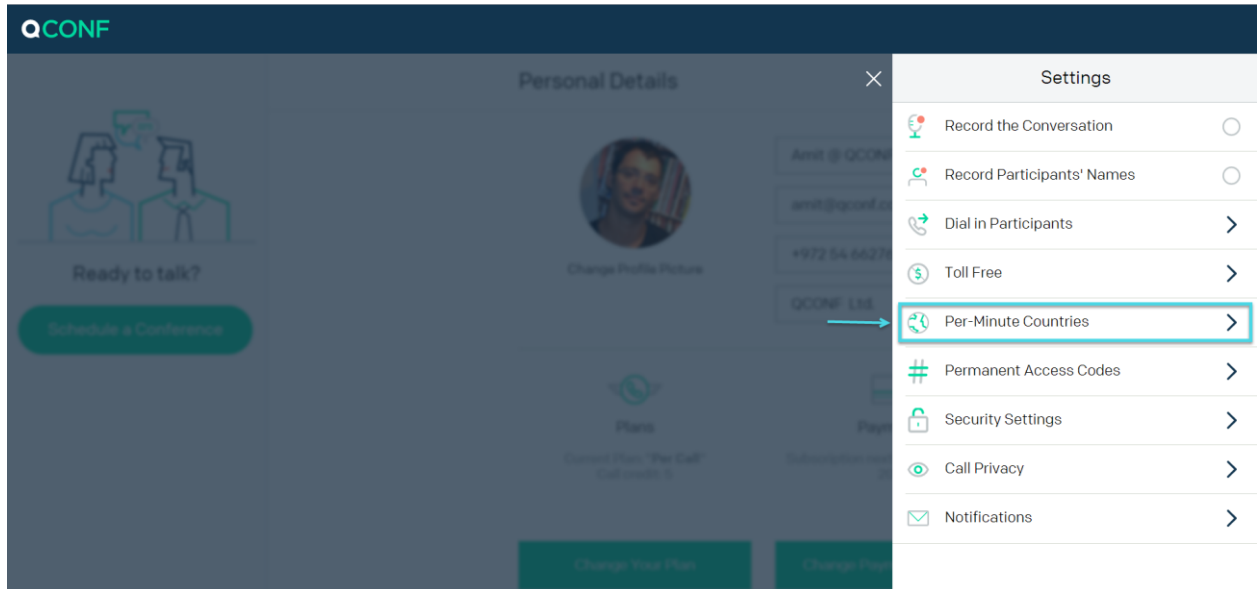

How to use Per-Minute countries on every call?

1 Go To 'Settings'

After you sign into QCONF, click the drop down menu and choose 'settings'

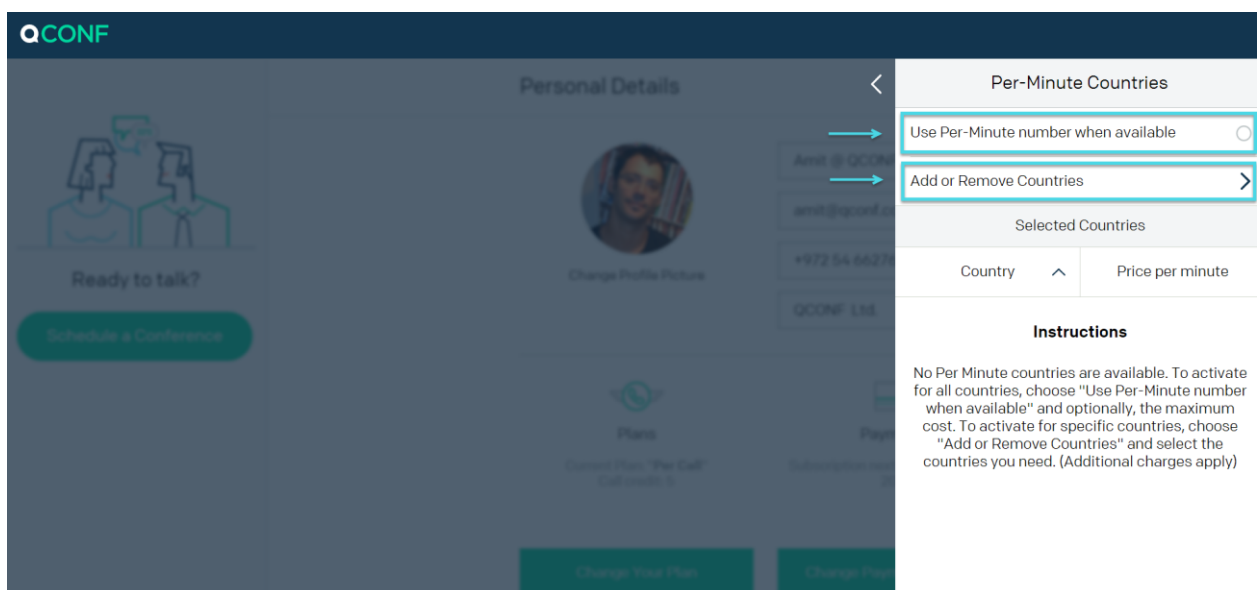

The screenshot displays the QCONF user interface. At the top, there is a navigation bar with the QCONF logo, a 'Schedule a Conference' button, and links for 'Upcoming Calls' and 'Call History'. The user's name 'Amit @ QCONF' is shown in the top right corner. The main content area is titled 'Personal Details' and features a profile picture of a man, a 'Change Profile Picture' link, and a form with the following fields: 'Amit @ QCONF', 'amit@qconf.com', '+972 54 6627601', and 'QCONF Ltd.'. Below this, there are sections for 'Plans' (Current Plan: "Per Call", Call credit: 5) and 'Payments' (Subscription next debit is on Jan 5, 2017). At the bottom, there are two buttons: 'Change Your Plan' and 'Change Payment Settings'. On the right side, a dropdown menu is open, showing options for 'Personal Details', 'Settings', 'Status', 'Help', and 'Sign Out'. The 'Settings' option is highlighted with a blue border and a blue arrow points to it from the profile picture area.

2 Choose Per-Minute Countries

3 Tick "Use Per-Minute number when available".

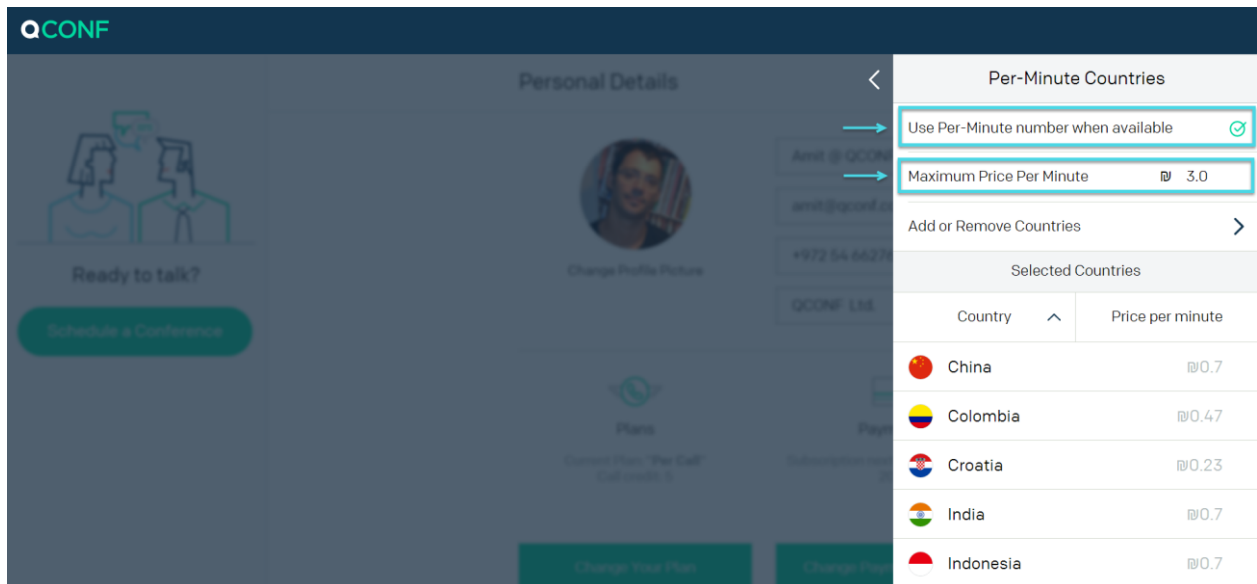

To be on the safe side choose "Use Per-Minute number when available". This means that if you ever invite participants from the supported countries, QCONF will offer them a local access number in their country, making it easy for them to choose the most convenient method of joining the audio conference. You can limit only for specific countries or set a maximum price per minute.

4 Optionally set the 'Maximum price per minute'

To activate for all countries, choose "Use Per-Minute number when available" and optionally, the maximum price per minute.

The system will only enable local access numbers in countries, where the price per minute, you pay, is under the limit.

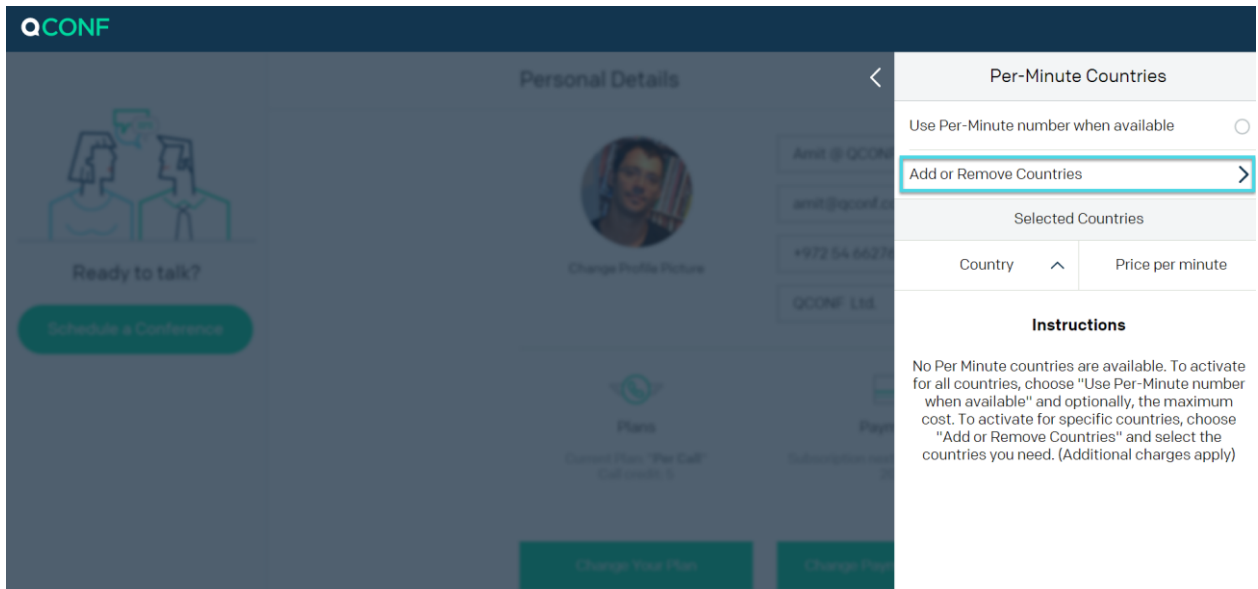

Per-Minute Countries	
<input checked="" type="checkbox"/>	Use Per-Minute number when available
<input type="text"/>	Maximum Price Per Minute 3.0
Add or Remove Countries >	
Selected Countries	
Country	Price per minute
China	₹0.7
Colombia	₹0.47
Croatia	₹0.23
India	₹0.7
Indonesia	₹0.7

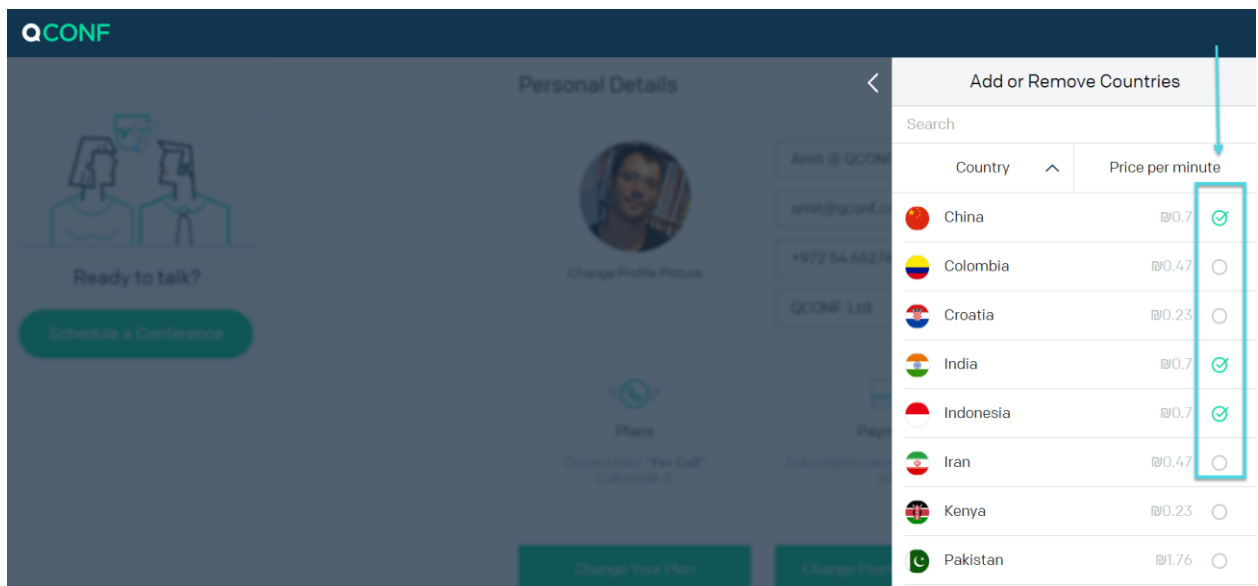

** After you set it to 'Use Per-Minute number when available' the list of available countries will be displayed underneath.

5 Optionally limit for selected countries.

A second option is to activate for specific countries, choose "Add or Remove Countries". If invitees are located in one of the selected countries, QCONF will invite them with a local access number.

Select the countries where you might have invitees.

How to invite a specific participant with a local access number?

If you only want to use Per-Minute countries from time to time, choose it as you schedule a conference call and add your participant. You can add Per-Minute countries per participant when you update their details.

1 Schedule a call from the web and add a participant

To learn 'how to schedule a call from the web?' click [here](#)

2 Check the 'Premium Services' section

To invite a participant with a local access number, click the Button 'Local Access Number' (left screen). The Button will turn green (right) and this participant will get a local access number and an invitation by email that tells him about it. (country is according to the 'Location' setting)

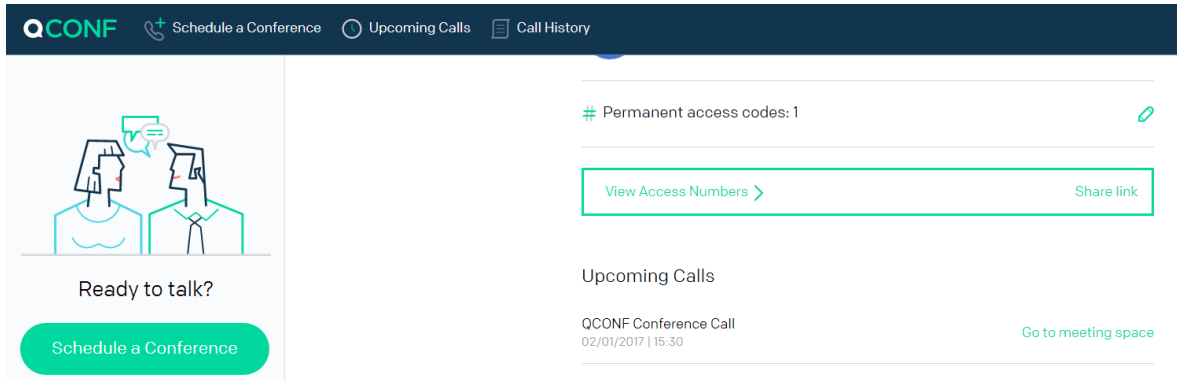

The image displays two screenshots of the 'Add A Participant' form in the QCONF interface. Both screenshots show the same form fields: Name (Albert Einstein), Email (Albert.Einstein@gmail.com), Phone Number, Location (Asia/Taipei), and Language (English). The 'Premium Services' section is highlighted in both.

Left Screenshot: The 'Local Access Number' button is highlighted with a red box. A red arrow points to the 'Add' button at the bottom.

Right Screenshot: The 'Local Access Number' button is highlighted with a green box, indicating it has been selected. The 'Add' button at the bottom is also highlighted in green.

How to invite a participant during a call?

- 1 Find the relevant call from the 'Upcoming calls' list and press 'Go to meeting space'. Get to 'upcoming calls' list either from 'my account' or from the upper menu.

- 2 Press 'Invite people' from the upper right part of the screen and invite additional participants by phone number.

Don't forget to click the Button 'Local Access Number'.
